📢 Project Update: Embracing a Multichain Future

At **BUDYZ**, our mission has always been about more than just technology — it's about building a loyal, engaged, and compassionate community inspired by Bud and the values he represents. As we grow, so does our vision. Today, we're excited to share a strategic update on how we're positioning BUDYZ for long-term success.

🌐 A Strategic Shift: \$BUDYZ Token Moving to Solana

We've decided to launch the official \$BUDYZ token on the Solana blockchain, leveraging its ultra-fast transactions, low fees, and growing memecoin ecosystem. By using trusted Solana platforms, we'll be able to launch with locked liquidity and transparent tokenomics — making \$BUDYZ safer, faster, and ready to thrive.

Why Solana?

- ⚡ Lightning-fast transactions (sub-second finality)
- 💸 Extremely low fees (great for micro-interactions)
- 🛡️ Liquidity lock features for added security
- 🚀 Strong community support for memecoins and viral tokens

🛠️ What Stays the Same: Polygon and Pi Network Still Matter

This shift doesn't change our ongoing and future activities on Polygon and the Pi Network:

✓ On Polygon

- Our NFTs (including The Budyz 500, Genesis Badge, and PI Edition Badge) remain active and accessible.
- All rewards connected to these badges will still be honored — no action is required from holders.
- Future utility and gamified features for NFTs are still in development.

✓ On the Pi Network

- We're finalizing integration of the PI SDK to verify user participation and grant access to exclusive rewards.
- BUDYZ remains committed to exploring new frontiers with the Pi Network and expanding adoption beyond Web3-native users.

🌐 Why Multichain? The Best of All Worlds

By building BUDYZ across multiple chains, we:

- 🌟 Increase visibility and accessibility
- 🎁 Maximize community benefits (NFTs + token)
- 🔗 Combine the creative strength of Polygon NFTs with the performance of Solana tokens
- 📲 Extend adoption through Pi Network's massive user base
- One mission, many chains — united by Bud.

🔮 What's Coming Next

- 🎉 The Community Kickstart Airdrop begins soon — rewarding NFT holders with \$BUDYZ
- 🧪 Final testing of the PI Edition Badge app
- 💰 Deployment of \$BUDYZ on Solana with locked liquidity
- 🌱 Expansion of the BUDYZ roadmap toward The Budyz Foundation

Thank you for believing in this vision. Whether you're holding a badge, supporting on socials, or joining from the Pi Network, you're part of something bigger — and together, we're just getting started.

Wanna be BUD's friend? Grab your BUDYZ.

💡 Update: Presenting the Hall of Budyz — The Top 40

As we continue rewarding our earliest and most loyal supporters, we've been hard at work tracking activity, engagement, and participation across our social platforms. After carefully reviewing community data and interactions, we've made an important decision.

We will officially showcase only the **Top 40 Budyz in The Hall of Budyz** — our exclusive community recognition space.

🧠 Why This Change?

Originally, we envisioned highlighting a larger group, but as we dived deeper into the data, we prioritized quality over quantity. Here's why:

1. Authentic Engagement
2. We reviewed every handle, interaction, retweet, and post to ensure that those featured were genuinely involved — not bots or accounts created for airdrop farming.
3. Transparency & Credibility
4. By selecting the Top 40 based on visible contributions, we create a fair, curated, and verifiable recognition list.
5. Focus on Real Contributors
6. This approach celebrates the voices, faces, and tweets that truly helped BUDYZ grow during its early stages — the ones who showed up, stood out, and shared the mission.

🏅 What Makes The Top 40 Special?

- They will be featured in The Hall of Budyz — a permanent page on our website.
- Each profile will be listed by Twitter handle, with links to their activity.
- This is our way of honoring the early community that helped BUDYZ take its first real steps.

These Top 100 Budyz didn't just support us — they believed in us.

🔒 Fairness First

To ensure full transparency:

- We manually reviewed and cleaned the list, removing duplicates, suspicious accounts, and low-quality engagements.
- The full eligibility data remains archived and auditable to preserve our accountability.
-

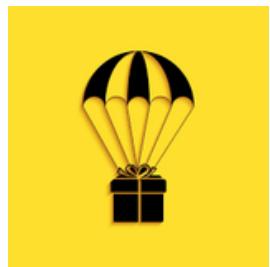

🙌 What About the Others?

If you're not on the Top 40 list — don't worry!

- You may still be eligible for airdrops through NFTs (BUDYZ 500, Genesis Badge, PI Edition Badge).
- More community contests, NFT rewards, and airdrops are on the horizon.
- The Hall of Budyz is just the beginning — we're building long-term trust and participation, and there will be many chances to shine.

The Hall of Budyz isn't just a list — it's a legacy.

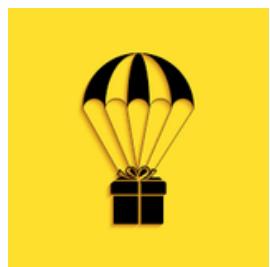

Thank you to everyone who has supported us so far. Whether you're in the Top 100 or just getting started, you are a part of the BUDYZ movement — and we're only getting started. 🐾

📢 The first Budyz Airdrop is complete!
As promised late July we started and during the week we finished.

BUDYZ Official Wallets & Account Structure

To ensure transparency, clarity, and long-term integrity in the management of the \$BUDYZ token, the project utilizes two main wallets, each containing dedicated accounts for specific functions.

Wallet 1: Budyzxyz

This wallet is actively used for daily project operations, token distribution, and liquidity-related actions.

• **Community Account**

Address: 3XR3.....Rd5Mw (123.85million tokens)

Purpose:

- Used to distribute tokens to the BUDYZ community through campaigns such as:
- Airdrops
- Like-to-Earn incentives
- Social engagement rewards
- Giveaway events (e.g. Budyz 500, Genesis NFTs)

• **Creator**

Address: 93h37.....P3Hff (496 million tokens)

Purpose:

- To be used for the development of the Deflationary Mechanism (250 million tokens) and for Strategic Partnerships (250 million tokens).
- 4 million tokens were used during the Micro-Dex Listing.

• **BudyzXYZ Startup Account**

Address: kXfg.....DZ5gu (350 million tokens)

Purpose:

- To invest on the carbon credit market by purchasing carbon credits. **Liquidity Lock Plan!**

Wallet 2: Budyzplus

This wallet is reserved for long-term project sustainability. It is not used frequently and is securely stored offline for protection.

• **Author & Team Account**

Address: 3AoW.....mAFiS (750 million tokens)

Purpose:

- Holds a portion of the supply allocated to the founding team and contributors.
- Tokens may be vested or released according to roadmap milestones to ensure alignment with the project's long-term success.
- **250 million tokens will be part of the Liquidity Lock Plan!**

• **Reserve Fund Account**

Address: Gt19Si....pskber (500 million tokens)

Purpose:

- Serves as a strategic reserve for emergency funding, project expansions, exchange listing fees, or unforeseen developments. **Liquidity Lock Plan!**
- It remains untouched unless required and will be used with transparency.

• **Foundation Account**

Address: 7vBNy.....NWsb (250 million tokens)

Purpose:

- Allocated to fund The BUDYZ Foundation — a charitable initiative focused on animal welfare, education, and community support. **Liquidity Lock Plan!**
- Funds will support donations, grants, outreach, and verified partnerships aligned with the foundation's mission.

Wallet 3: Budyzsuper

This wallet is reserved for the very specific purposes stated below.

• **Liquidity Pool Account**

Address: y7UB2s6.....PnREv (2.5 billion tokens)

Purpose:

- Reserved exclusively for pairing \$BUDYZ with USDC (or other stablecoins) to create and grow liquidity pools on decentralized exchanges (DEX).
- This account supports price discovery and market availability, starting with the DEX listing phases.

Project Integrity Measures

- **Minting Authority: Revoked permanently.**
- **Total Supply: Fixed at 5,000,000,000 \$BUDYZ**
- **Wallets & roles: Publicly disclosed and masked for transparency and safety.**

BUDYZ TOKEN REALLOCATION

- Community Reward Adjustment & Strategic Allocation to BudyzXYZ Startup
- Date: December 2025

1. Overview

This report outlines the strategic reallocation of **100 million \$BUDYZ tokens** from the **Community Rewards** pool to the **BudyzXYZ Startup wallet**.

The decision follows a detailed assessment of community participation, operational efficiency, and long-term ecological priorities within the Budyz ecosystem.

2. Background

An initial allocation of **250 million \$BUDYZ** was reserved for community rewards and engagement initiatives.

However, the distribution process revealed a significant limitation:

- Many participants did not create their **Associated Token Accounts (ATA)**.
- Granting tokens without **ATAs** requires the sender to pay rent fees, which results in unnecessary costs and eventual token burn losses.
- As a result, **only 25 million tokens** could be successfully delivered to community members.
- This situation led to a practical reassessment of how the remaining tokens should serve the project.

3. Strategic Decision

To ensure responsible and meaningful use of the unclaimed supply, **100 million tokens** are now reassigned to the **BudyzXYZ Startup**.

These tokens will be dedicated to:

- Future ecological initiatives, including **carbon credit acquisitions**.
- Strengthening **BudyzXYZ Startup's operational capacity** in sustainability-driven missions.
- Supporting the long-term environmental strategy of the **Budyz ecosystem**.
- This ensures the assets are applied where they generate real impact instead of remaining idle.

4. Remaining Community Allocations

The community is still at the center of the **Budyz mission**.

After the adjustment, **125 million tokens** remain locked for:

- M.V.Bz Awards
- Budyz Lottery
- SuperBudyz Symbol Contest
- These tokens focus on merit-based participation, rewarding individuals who genuinely contribute to the growth, communication, and integrity of the **Budyz ecosystem**.

5. Rationale

This reallocation reflects three guiding principles:

- Operational Responsibility
- Avoid unnecessary expenses related to ATAs and prevent token loss through eventual burns.
- Mission-Driven use of resources
- Redirect unused supply toward impactful environmental initiatives.
- Fairness & Long-Term Value
- Maintain incentives for real supporters instead of rewarding non-engaged claimants.

6. Conclusion

The transfer of **100 million \$BUDYZ to BudyzXYZ Startup** strengthens both the ecological mission and the economic sustainability of the project.

It ensures that every token serves a purpose—either rewarding genuine contributors or fueling tangible environmental action.

This decision reinforces **Budyz's commitment to transparency, responsibility, and long-term vision**.

From The Hall of Budyz to M.V.Bz — A New Era of Active Participation

- **The Hall of Budyz** was created to honor our earliest supporters — the people who believed in the project before anything existed. It served as a tribute to loyalty, curiosity, and the first spark that ignited the Budyz community.
- As the project evolved, so did the expectations and responsibilities of our core members.
- To reflect this new phase, **The Hall of Budyz has now transformed into M.V.Bz — The Most Valuable Budyz.**
- M.V.Bz is not simply a list of early followers. It represents the transition from passive support to active contribution.
- Members who selected to **M.V.Bz** are no longer observers; they take the next step by:
 - helping promote Budyz across X and Telegram
 - supporting ecosystem announcements
 - amplifying key milestones
 - fostering clean, authentic communication
 - strengthening the project's long-term mission
- This evolution marks a shift in our community culture.
- Where the Hall celebrated early belief, M.V.Bz celebrates action — the individuals who stand beside Budyz and actively help build the future of our Web3 ecological brand.
- **The Hall** remains a part of our history and members were awarded the **Hall of Budyz Badge**.
- **The M.V.Bz** defines our path towards the new horizons.
